CF Meetup: "Trailer for CFUNITED: Who killed ColdFusion?", with David Stockton

Thursday, Jul 30, 12:00pm US EDT

Meeting URL: <http://experts.acrobat.com/cfmeetup/>

Organized by Charlie Arehart

Description: At CFUnited join the CSI: ColdFusion Server Investigation team using state of the art server analysis tools to unravel a mystery. Together we must hunt down and stop a ColdFusion serial killer who's hanging CF Servers across the country. To not give away the mystery, this CFMeetup presentation will focus on how you can use a new ColdFusion analysis tool from the makers of FusionReactor to help you find out how and why a server was "killed."
